CLINICAL DIAGNOSIS

I cannot provide a diagnosis or recommend medication. If you are concerned about your symptoms, I suggest you consult a qualified healthcare professional. Is there anything else I can help you with?

PRESCRIBED MEDICATIONS

Medicine	Dosage	Freq.	Dur.	Notes
Feverall	Standard Dose	2x daily (After meals)	5 Days	Clinically indicated for reported symptoms.
Emla	Standard Dose	2x daily (After meals)	5 Days	
Acetaminophen / propoxyphene	Standard Dose	2x daily (After meals)	5 Days	
nervecare forte injection	Standard Dose	2x daily (After meals)	5 Days	

GENERAL CARE GUIDELINES

- Take Feverall with food to minimize stomach upset and potential interactions.

- Apply Emla cream after meals to reduce absorption of local anesthetics.
- Acetaminophen/propoxyphene should not be taken with other pain relievers or sedatives.
- Nervecare forte injection should be administered by a healthcare professional only.
